

Scope of NBS Chorus for Uniclass 2015 – Australian content

Libraries of pre-written specification clauses and guidance are authored by our Australian based specialist team. Content is arranged by project management, roles and systems, covering a multi-disciplinary scope, which means that an accurate specification can be written in less time, avoiding the risk of duplicated or conflicting clauses.

NBS Chorus covers the specific systems and the performance, products, execution, completion and verification clauses that are required by the following groupings.

Project management sections (30):

PM_10 **Project information (2)**

PM_10_10 Project

PM_10_20 Client requirements

PM_30 **Site, ground and environmental information (4)**

PM_30_10 Site survey information

PM_30_20 Ground investigation reports

PM_30_30 Environmental information

PM_30_40 Hazardous substances information

PM_35 **Whole project performance (7)**

PM_35_10 Quality and operational properties performance requirements **(New)**

PM_35_20 Structural performance requirements **(New)**

PM_35_30 Fire performance requirements **(New)**

PM_35_40 Environment and sustainability performance requirements **(New)**

PM_35_50 Safety performance requirements **(New)**

PM_35_60 Acoustic performance requirements **(New)**

PM_35_70 Energy performance requirements **(New)**

PM_40 **Design and approvals information (3)**

PM_40_30 Design information

PM_40_50 Project information management information

PM_40_60 Project information management information **(Updated)**

PM_50 **Financial and commercial information (1)**

PM_50_50 Procurement and tendering information

PM_60 **Construction management information (8)**

PM_60_10 Site information

PM_60_20 Project requirements

PM_60_30 Contract programme and progress

PM_60_40 Meetings and records

PM_60_50 Contract cost management

PM_60_60 Contract support information

PM_60_70 Construction risk management

PM_60_90 Contract quality standards information

PM_70 **Testing, commissioning and completion information (4)**

PM_70_15 Compliance and certification documents

PM_70_80 Commissioning information

PM_70_85 Completion information **(Updated)**

| | |
|-----------------|---|
| PM_70_90 | Record information |
| PM_80 | Asset management information (1) |
| PM_80_10 | Asset strategy, planning and management information |

Roles sections (9):

Ro_10 **Management roles (3)**

| | |
|-----------------|----------------------------|
| Ro_10_20 | Client roles |
| Ro_10_30 | Asset management roles |
| Ro_10_40 | Operation management roles |

Ro_30 **Delivery roles (1)**

| | |
|-----------------|---------------------|
| Ro_30_10 | Delivery team roles |
|-----------------|---------------------|

Ro_50 **Design roles (3)**

| | |
|-----------------|---|
| Ro_50_10 | Building design roles (Updated) |
| Ro_50_20 | Engineering design roles (Updated) |
| Ro_50_30 | Environmental design roles (Updated) |

Ro_70 **Site roles (2)**

| | |
|-----------------|---|
| Ro_70_10 | Surveyor and planner roles |
| Ro_70_30 | Environmental and geological roles (Updated) |

Activities sections (2):

| Code | Title | Architecture | Landscape | Services | Structural |
|-------------|--|--------------|-----------|----------|------------|
| Ac_05_50_91 | Timber sourcing | ✓ | ✓ | | ✓ |
| Ac_10_10 | Deconstruction and demolition activities | ✓ | ✓ | ✓ | ✓ |

System sections (83):

| Code | Title | Architecture | Landscape | Services | Structural |
