

Uniclass 2015

SL – Spaces/ locations Table v1.20

April 2021

General changes

We have continued our work with the Department for Education to establish appropriate external Spaces for schools, which has resulted in the addition of a number of new codes and classifications. Our continuing work with the Environment Agency has also resulted in several new codes and classifications. Finally, we are working with the team refurbishing the Palace of Westminster and they have requested some codes for protected areas. See below for details.
